OPTIONAL TARIFF SHEETS (LEVELS 8-Elite)

Preparation of tariff sheets for Levels 8-Elite

Each pair/group entry at the Elite, Junior Elite, and Levels 8-10 must submit an optional tariff sheet. **Level 8-I is to use the FIG international tariff sheet form.** There are specific deadlines to meet for filing these forms, and penalties will be assessed for late forms as well as improperly completed forms.

1. The tariff sheet on the following appendix page is to be copied and used for competition at Levels 8-Elite.
2. Complete:
   a. Name of the competition for which this tariff sheet is being used
   b. **The Entry Number is completed by the coach based on the pair/group’s ID. This ID can either be generated by the Acrobatic Gymnastics Online Registration System or by the Regional Administrative Committee Chairman. The pair/group’s ID should remain the same throughout the season. If any partner changes within the pair/group a new ID is required.**
   c. Club: name of team or club (abbreviation is acceptable)
   d. Name of the head coach and contact information for the coach (phone number and email address)
   e. Each athlete’s name
   f. Discipline: Women's Pair, Men's Pair, Mixed Pair, Women's Group (3), or Men's Group (4)
   g. Level: Level 8, 9, 10, Junior Elite, or Elite
   h. Age group: 11 and under, 12-14, 15-16, 17 and over, or n/a (to be used for Jr. Elite and Elite)
   i. Exercise: balance, dynamic, or combined
3. Diagrammed difficulty: Draw the elements clearly and precisely. Diagram in sequence horizontally following the numbers. Add a brief written description if the drawing is difficult to understand.
4. For elements which will be held, show the duration of hold.
5. For dynamic elements, indicate by fractions (i.e. 6/4) the number of salto rotations planned. Degrees of twist should also be indicated (i.e. 360°).
6. Use one box for each valued element with the exception that paired individual elements may be represented in the same box. There is a penalty for illegible tariff sheet or for placing more than three skills in one box.
7. If partners are doing different individual elements or the same element, note this. Show the ID number and value for each individual element.
8. Value: Show the value for each element as given in the FIG Tables of Difficulty.
9. Identification number (ID): Identify each element by the proper notation from the FIG Tables of Difficulty. If the element is not rated, put NR for Not Rated in the ID line and leave the value line blank.
10. Most competitions will require that you submit three copies of each tariff sheet, one to the Meet Referee, one to the CJP, and one to the Difficulty Judge. Be sure that the copies are as legible as the original. Keep an extra copy of your tariff sheet with you at all meets for reference or special needs.
11. Refer to Section 6.6 in the Specifications for instructions on submitting tariff sheets.
### OPTIONAL TARIFF SHEET
