2.7.2.2. When using a total S score, deductions are subtracted from the maximum mark indicated by the Chair of the Judges Panel. When using element-by-element S score, each S judge’s deductions will be entered into the scoring program. The program will average the two deductions for each element. The average will be the valid deduction for each element. The total of the average will be taken from the maximum mark and will be doubled resulting in the valid S score for the routine.

2.7.3. Display the synchronization score. The Chair of the Judges Panel will determine the maximum mark.

2.8.2.1.2. If available use a time calculation program to determine ToF.
2.8.2.1.3. If the time calculation program is not available, the following process will be used to determine the ToF for the routine.

2.8.2.1.4. The video will be timed using a stop watch. The judge will start the time when the athlete is completely in the bottom of the trampoline bed before initiating the first element, and stop the time after the athlete’s final element is completely at the bottom of the trampoline bed. The times listed below are taken from the maximum mark determined by the Chair of the Judges Panel.

2.9.3. Evaluation of the score for Horizontal Displacement (HD score)

When the HD score is determined by judges rather than a device

2.9.3.1. Deductions for the elements performed to the feet, when the majority of the foot lands in a zone (obviously outside the outer line), the deduction related to this zone will be applied (see Guide to Judging).

2.9.3.2. Deductions for the elements performed to the front, back or seat (because a larger portion of the body touches the bed), the hip joint portion of the body touching the bed should be used to determine where the body lands (see Guide to Judging).
Section 3 – Trampoline Routines and Requirements

3.1. Required Positions During an Element
3.1.1. In all positions, the feet and legs should be kept together (except in straddle jumps) and the feet and toes pointed.
3.1.2. Depending on the requirements of the movement, the body should be tucked, piked or straight.
3.1.3. In the tuck and pike positions, the thighs should be close to the upper body, except in the twisting phase of multiple somersaults.
3.1.4. In the tuck position, the hands should touch the legs below the knee.
3.1.5. In the pike position, the hands should touch the tops of the feet.
3.1.6. In straddle jumps, the angle between the legs must be equal to or greater than 45° and the hands should touch the tops of the feet.
3.1.7. The arms should be straight and/or close to the body whenever possible.
   3.1.7.1. In single somersaults with 360° of twist or less and double somersaults with 180° of twist the arms may be straight and away from the body 45° with no deduction (see Guide to Judging).
   3.1.7.2. In single somersaults with more than 360° of twist and all other twisting double somersaults, the arms may be straight and away from the body 90° with no deduction (see Guide to Judging).
3.1.8. The following defines the minimum requirements for a particular body shape:
   3.1.8.1. Straight position: The angle between the upper body and the thighs must be greater than 135° (see Guide to Judging).
   3.1.8.2. Pike Position: The angle between the upper body and the thighs must be equal to or less than 135°, and the angle between the thighs and the lower legs must be greater than 135° (see Guide to Judging).
   3.1.8.3. Tuck position: The angle between the upper body and thighs must be equal to or less than 135°, and the angle between the thighs and the lower leg must be less than 135° (see Guide to Judging).
   3.1.8.4. When two positions are achieved in a single somersault the Difficulty Judge will assess the element based on the least difficult body position prior to one o’clock. After one o’clock any change in position will be treated as a “keeping/holding” deduction.
   3.1.8.5. When two positions are achieved in multiple somersaults the Difficulty Judge will assess the element based on the least difficult body position achieved prior to the final 180° of the element. Any change in position in the final phase will be treated as a “keeping/holding” deduction.
   3.1.8.6. In the tuck and pike position the thighs should be as close as possible to the upper body.
   3.1.8.7. The phases in multiple somersaults are
      3.1.8.7.1. In somersaults of 540° or less, one phase is recognized.
      3.1.8.7.2. In somersaults of 630°-900°, two phases are recognized, early and late, and equate to the degrees of rotation divided by two.
      3.1.8.7.3. In somersaults of 900° or more, each somersault is recognized as a separate phase.

3.2. Repetition of an Element
3.2.1. Elements performed more than once during the 1st voluntary routine will result in a penalty of 2.0 from the total score of the routine for each occurrence where the offense occurs, as per Rule 2.4.2.1.
3.2.2. Elements performed more than once during the 2nd voluntary routine will result in the loss of the difficulty value of the repeated element.
3.2.2.1. If the loss of difficulty due to a repetition causes the difficulty to drop below the minimum required, an additional 2.0 penalty will be taken from the total score, as per Rule 2.4.2.2.

3.2.3. Elements having the same amount of rotation, but performed in either the tuck, pike or straight positions are considered to be different elements and are not considered a repetition.

3.2.4. Multiple somersaults of more than 630°, having the same number of twists and somersaults will not be considered a repetition if the twist is located in different phases of the element (see Guide to Judging).

Section 4 – Calculation of the Score

4.1. Types of Scores
- “D” scores are the total for the degree of difficulty in one routine.
- “E” scores are the total for the execution in one routine.
- “S” scores are the total for synchronization in one routine.
- “HD” score is the total for horizontal displacement in one routine.
- “T” score is the total for the time of flight in one routine.

4.2. Calculations of the Scores
4.2.1. The evaluation of the execution of elements, difficulty, horizontal displacement and synchronization is done in tenths of a point. The evaluation of Time of Flight will be done in thousandths of a point.
4.2.2. Judges must write down their deductions independently of each other.
4.2.3. When signaled by the Chair of the Judges Panel, the Execution, Horizontal Displacement and Synchronization judge’s scores must be shown simultaneously.
4.2.3.1. Missing marks will be replaced using the following criteria.
4.2.3.2. If any of the judges for execution fails to show their mark when signaled by the Chair of the Judges Panel, the remaining mark(s) will be averaged and used for the missing mark.
4.2.3.3. If any of the judges for synchronization fails to show their marks when signaled by the Chair of the Judges Panel.
4.2.3.3.1. If using a synchro device, the Chair of the Judges Panel along with an appointed judge will use video if available to determine the valid synchro score.
4.2.3.3.2. If using two judges, the remaining mark will be doubled and used for the missing mark.
4.2.3.4. If the judge for Horizontal Displacement fails to show their marks when signaled by the Chair of the Judges Panel.
4.2.3.4.1. If an electronic scoring system is used, the Chair of the Judges Panel and an appointed judge may use official video to determine the HD Score.
4.2.3.4.2. If official video is not available the athlete may be allowed to compete again upon the approval of the Chair of the Judges Panel.
4.2.3.4.3. If no electronic scoring system and no video is available, and a judge is used, the Chair of the Judges Panel may determine the score for HD or the athlete may be allowed to compete again upon the approval of the Chair of the Judges Panel.
4.2.4. For all levels and all competitions, the Meet Director can choose to utilize either the element-by-element or total E, HD and S score process. This must be declared in the competition directives provided prior to competition.

4.3. Calculation of the Score for Execution (E Score)
4.3.1. To determine the E score, all execution and landing deductions are subtracted from the maximum mark as declared by the Chair of the Judges Panel.
4.3.1.1. When using a total E score, the two/three scores must have a range of no more than 0.5 from each other or the median score. If E scores are not within 0.5, the Chair of the Judges Panel will advise the judges to move their scores in a manner that is deemed best and fairest until they are in range.
4.3.1.2. Element-by-element average or median scoring does not require a range.
4.4. **E Score Options and Calculation Methods**

4.4.1. Meet Directors may choose among the scoring methods shown in Rule 4.4 and scoring options below. Scoring methods that will be used at the competition must be stated in meet directives / registration packet.

4.4.2. **When only one** Execution judge is used, the judge’s total mark is multiplied times two.

4.4.3. In all levels using two Execution Judges and the total E score method, the two scores are added together to determine the total E score for the routines.

4.4.4. In all levels using three Execution judges and the total E score method, the three scores are either averaged or the median used and multiplied times two to determine the total E score for the routine, as per Rule 4.4.7.2.1 – 4.4.7.2.3.

4.4.5. In all levels, when two Execution judges and the element-by-element method is used, the deductions for each element are added together and subtracted from the maximum mark to determine the total E score.

4.4.6. In all levels, when three Execution judges and the element-by-element method is used, the average of each deduction or the median deduction is added together and subtracted from the maximum mark then multiplied times two to determine the total E score for the routine as per Rule 4.4.7.2.1 – 4.4.7.2.3.

4.4.7. In all levels for synchronized competition, drop the high and low Execution judges score and average the two remaining marks for the valid execution score (max 10.0). (See Guide to Judging)

4.4.8. Calculation of the total score for a routine

4.4.8.1.1. 2 Judge total score

- (E1 + E2) – penalties

4.4.8.1.2. 3 Judge average:

- (Average Total score of E1,E2,E3) x 2) + HD + ToF + DD - penalties

- (Sum of the average of each element score of E1, E2, E3, subtracted from the maximum mark) x 2) + HD + TOF + DD – penalties

4.4.8.1.3. 3 Judge median:

- (Drop high and low score of E1, E2, E3 X 2) + HD + ToF + DD – penalties

- (Drop high and low deduction of each element of E1, E2, E3, take the sum of the median deductions and subtract from the maximum mark x 2) + HD + ToF + DD – penalties

4.5. **Calculation of the Score for Difficulty (D Score) Levels 8-10**

*Updated 9.6.22*
4.5.1. Difficulty judges calculate the difficulty of the second voluntary routine as per Rules 2.6.11.1.1-2.6.11.4 and enter it on the competition card.

4.6. **Calculation of the Score for Synchronization for Levels 9-Open**

4.6.1. If an electronic scoring system is used, the mark generated by the system is doubled and taken as the valid score for synchronization.

4.6.1.1. If a breakdown of the electronic system occurs, the score for synchronization is determined through an analysis of the official video by the Chair of the Judges Panel or an appointed judge with the assistance of the Synch judge per Rule 2.7.2.1.

4.6.2. If an electronic scoring system is not available then two judges will take the appropriate deductions and subtract from the maximum mark determined by the Chair of the Judges Panel.

4.6.3. Evaluate the synchronization of each element in the range of 0.0-0.5 as per Rule 2.7.1.

4.6.4. When using a total S score, judges will subtract their deductions from the maximum mark determined by the Chair of the Judges Panel. The two S scores will be added together to determine the valid S score. (Maximum 20 pts)

4.6.5. When using element-by-element S scores, Synch judge’s deductions will be entered into the scoring program. The deduction for each element will be averaged and considered the valid deduction for each element. The deductions will be subtracted from the maximum mark determined by the Chair of the Judges Panel (Maximum 20.0).

4.7. **Calculation of the Score for Time of Flight (T Score)**

4.7.1. The evaluation of the time of flight should be done electronically. The appointed judge is responsible for controlling the electronic scoring system.

4.7.1.1. If a breakdown of the electronic system occurs, the time is determined through an analysis of the official video by the Chair of the Judges Panel or an appointed judge with the assistance of the Difficulty judge per Rule 2.8.2.1.

4.7.1.2. All TOF scores will be rounded down to the nearest .005.

4.8. **Calculation of the Score for Horizontal Displacement (HD Score)**

4.8.1. The evaluation of Horizontal Displacement should be done electronically.

4.8.1.1. If an electronic scoring system is used, the mark generated by the system is taken as the score for HD.

4.8.1.2. Should an electronic system not be available, one (1) judge for individual trampoline and (2) judges for synchronized trampoline will evaluate the routine and take the appropriate deductions based on the landing on the bed and subtract from the maximum mark as determined by the Chair of the Judges Panel.

4.8.2. If the HD judge fails to show his/her mark the Chair of the Judges Panel or an appointed judge with the assistance of the Horizontal Displacement Judge may use official video to determine the HD score.

4.8.2.1. If official video is not available the athlete may be allowed to compete again upon the approval of the Chair of the Judges Panel.

4.9. **Calculation of the Competitor’s Score for the Qualification Round**

4.9.1. Compulsory Routines

4.10.2.2. The total score from the Qualification and the Final round are added together to determine the valid final score.

4.11. Final Score
4.11.1. The data recorder will notate the judge’s scores and enter the score into the scoring system.
4.11.1.1. The score will be rounded to two decimal places. Such rounding will only be made with respect to the competitor’s final total score.
4.11.2. The Chair of the Judge’s Panel is responsible for determining the validity of the final score. Some competitions may require the Chair of the Judge’s Panel to verify and sign the official results.
