I. Qualification scores

Discussion regarding change of qualification scores for the 2018 year. The committee felt the senior qualification scores should remain the same. For juniors, the qualification score into the 2018 American Classic and U.S. Classic will now be raised to 50.5 All around and the qualification score into the U.S. Championships will now be a 51.00 All Around.

Hopes qualification scores for 12-13 year olds will remain the same for optional qualification scores to the Classic. For 10-11 year olds, the qualifying score will raise from a 45.00 to a 46.00.

The updated 2018 qualification chart will be on the USA Gymnastics website

II. Review of 2 and 3 event scores and rule verbiage clarification

Committee clarified that a senior athlete can compete on 2, 3 or 4 events at a National Qualifier or the 2017 (fall) or 2018 National Team training camps MAY qualify with a 2 or 3 event score (they do not have to compete on all 4 events) and they will be allowed to compete on 4 events at the Classic competitions.

Also for Seniors that competed at 2017 P&G Championships on 2 or 3 events, if they received a 39.0 (or above) on 3 event or a 26.5(or above) on 2 event (regardless of total number events competed) at Championships, those scores would qualify the athletes into the 2018 American/US Classic on those events only. If the athlete wishes to compete All around or other events they did not (receive the qualifying score on at 2017 Championships), they must qualify through the 2018 National qualifier competitions.

Based on the needs of the country, specified National team training camps, as selected by the Selection committee and the National team coordinator, can be utilized for qualification into Classic meets and the U.S. Championships. All selection specified National team training camps will be judged by 2 FIG Brevet rated judges.

For Developmental camp qualification into (Hopes, American & US Classics meets)

Athletes must participate in at least 2 developmental camps (Fall 2017/Spring 2018) to be eligible to attempt to qualify to Classics by performing full sets on competition surfaces at selected developmental training camps in 2018.
