TECHNICAL INFORMATION

I. TRAINING/COMPETITION VENUE

II. EQUIPMENT – for National Qualifiers, Winter Cup, American Classic and US Classic

A. FIG equipment specifications will be used for the International Level competitors with some adjustments.
B. In addition to the 20 cm of matting in the dismount areas an additional 10 cm of matting must be used and NOT moved.
C. For beam, there will be a designated dismount area which cannot be changed.
D. Supplemental Matting
   1. Up to two of either manufactured sting mats or 10 cm mats are allowed to be placed separately on the Floor Exercise area. Whenever additional matting is placed on the Floor Exercise area and covers any portion of the boundary line(s), the mat must be clearly marked with tape or chalk to indicate the actual boundary line(s). Mats can be removed or left in place.
   Note: Floor matting must be placed prior to the floor routine starting. A mat cannot be added once the routine has started.
   2. Senior, Junior International, and Hopes Level athletes may use a skill cushion (maximum thickness of 8") in addition to the 20 cm (-2 cm tolerance) competition landing mat for release elements on bars. Matting must be removed after release move.
   3. Senior, Junior International, and Hopes Level athletes may place a manufactured sting or 10 cm mat under the bars during competition in addition to the 20 cm base mat. This matting cannot be moved or on top of the 10 cm landing mat.
E. Manufactured 100 x 120 cm Round Off Entry mats are required for use in front of the vaulting board for hand placement on Round off entry vaults.
F. The WAG Uneven Bars will have both rails raised by 5cm, effective January 1, 2022. The new measurements are 175cm (±1 cm) for the low bar and 255cm (±1 cm) for the high bar. The distance between the bars will be a maximum of 181cm (±1 cm). It will still be possible to request that both bars be raised an additional 5cm as outlined in the 2022-2024 WAG Code of Points. In this case, the distance
between the bars will be a maximum of 182cm (+1 cm).

G. Bar height increases are allowed in the following case in line with FIG rules:

1. Height increases of 10 cm shall be allowed in competitions for gymnasts who touch the mat with their feet during the exercise. This must be announced to the organizers at the time of the entry and verified by the designated judge (Meet referee) during the training/warm-up. Equipment suppliers / organizers must provide trained staff for a safe, fast and competent height increment if necessary.

H. For Hopes 13-14, Junior, and Senior level athletes, there will be two spring board configurations used at Vault -- Six springs (3-1-2) and 8 springs (3-3-2). Beam and Bars will use only one board (soft). Springs may not be moved or replaced.

I. For the 11-12 Hopes year-old athletes, there will be two spring board configurations used at Vault. A five (2-1-2) and six spring (3-1-2) for vault. For bars and beam boards you may remove springs to adjust to the Hopes athlete. You must return the spring as soon as your athlete is finished on that event.
